

***From the shards of Kristallnacht, light a new
flame of hope through education***

The Kristallnacht Memorial Sculpture

The Sperling Kronberg Mack Holocaust Resource Center will commemorate the 76th anniversary of Kristallnacht (Night of Broken Glass) at the center by prominently dedicating an original sculpture made from pieces of broken glass. Each of the shards of glass will be written or engraved with an individual donor's name as a part of the permanent art display for a contribution of \$75, \$180 or \$1,000 for the largest size leaf.

These funds will be used to establish the Henry Kronberg Education Fund which will be used to send two educators each year from Las Vegas to either Yad Vashem or the United States Holocaust Memorial Museum for important and valuable training on the lessons of the Holocaust.

Your generous donation will allow our teachers to share what they have learned about the Holocaust and new teaching strategies with their school community.

Please help dedicate the sculpture at the Center and establish the fund in honor of Henry. Thank You!
